Commissioner John E. Howard  
PO Box 11649  
Columbia, SC 29211

Dear Commissioner Howard:

Dear Sir,  
I hope that you and the commission are able to bring about a reasonable pricing mechanism for renewable energy. I have spoken with concerned grid-tied enrgy producers and they would all benefit from at least fair market(retail) rates of Kw. buyback. I also understand the unique nature of grid energy and the benefits to the community of erecting and maintaining the grid. People often take this major accomplishment for granted. I hope a balance can be arranged that will motivate concerned citizens to participate in our relationship with energy.

Sincerely,

Brooks Blanchard
